My face
now I'm on the case

only take what's due to me
your faith and hope and charity

so watch this space
it's a mad
mad world !

Get there
go and get your share

running on the spot to get a piece out of the pot

oh
silly human race
it's a bad
bad world
yes
it is !

Bye me
nothing comes for free

pay the price and you will find that in the end you're left
behind your dignity
so don't look at me -
and we all stand together
together !

Don't crash my car

I'm o.k.
you're o.k.
baby
everything's alright

don't crash my car ! (don't do it !)
Don't crash my car
don't crash my car !

Don't crash my car

...

She's there

didn't get her share

no-one's really giving to the people who are living
out of plastic bags

it's a sad

sad world !

Go home

gossip on the phone

Fridays drinking in a bar

on Saturday you clean the car

and shine the chrome

it's a happy home -

and we all stand together !

Don't crash my car

...

Don't crash my car

...
