If you look at it in that light  
Then you're possibly right  
My only wish, is to spend the night  
with holding you tight

They say, we're going into death valley  
But we're disinclined for dying  
when I'm with you, I always think I'm flying

Will you ever stop lying  
my little German liar  
ready to fall  
so high on a wire  
my little German liar  
my little German liar (x2)

Something's rotten in the state of Denmark  
you still pay everything in Deutsche Mark  
And in the twiddle of an eye,  
I kissed you goodbye  
my lips were black and grey  
but I didn't notice you  
were already on your train  
Oh, in the twiddle of an eye,  
I kissed you goodbye,  
My only wish 's that you could stay

My German dearest  
This little German girl  
She's the apple of my eye  
My German liar!
