"Miles Ahead Of Me"

Visit "[Miles Ahead Of Me](#)" on MotoLyrics.com

I've been in denial
I've been hiding like a kid
I try to list your imperfections
Shift the blame for what I did

I don't trust my excuses, they're just how I've learnt to live
Knowing I destroyed the shelter of our love

I can say, I'm ready to learn, I've been chasing the answers
But I don't have enough to keep up with your pace

You're miles ahead of me in knowledge and love
Miles ahead of me in courage and faith
Miles ahead of me in truth and intent
Miles ahead of me in kindness and strength
You're miles ahead of me

It wasn't my intention that I used your precious time
You opened up your life, but I was holding on to mine
Returned your honest certainty with panic and retreat
The fear defeats me every time we speak

But I'm ready to learn, I've been chasing the answers
Still I don't have enough to keep up with your pace

You're miles ahead of me in knowledge and love
Miles ahead of me in courage and faith
Miles ahead of me in truth and intent
Miles ahead of me in kindness and strength

You're miles ahead of me in knowledge and love
Miles ahead of me in courage and faith
Miles ahead of me in truth and intent
Miles ahead of me in kindness and strength

How could anyone be so obsessed with freedom
I somehow still expected you to stay

But I'm ready to learn, I've been chasing the answers
Still I don't have enough to keep up with your pace

You're miles ahead of me
Miles ahead of me
You're miles ahead of me
Miles ahead of me

You're miles ahead of me
(In knowledge and love)
Miles ahead of me
(In courage and faith)
You're miles ahead of me
(In truth and intent)
Miles ahead of me
(In kindness and strength)

Miles ahead of me
(In knowledge and love)
Miles ahead of me
(In courage and faith)
You're miles ahead of me
(In truth and intent)
Miles ahead of me
(In kindness and strength)

You're miles ahead of me
(In knowledge and love)
Miles ahead of me
(In courage and faith)
You're miles ahead of me
(In truth and intent)
Miles ahead of me
(In kindness and strength)

You're miles ahead of me
(In knowledge and love)
Miles ahead of me
(In courage and faith)
You're miles ahead of me
(In truth and intent)
Miles ahead of me
(In kindness and strength)
You're miles ahead of me
