Came back from late night shopping
Saw your shadow on the curtain
I presumed you let your self in
with the key you'd yet to return
You asked me how I'd been
And if I'd seen much snow
Skilfully avoiding things that happened here a year ago

So she's turned you out has she
well I cant say I'm surprised
After last years festive past
I find it hard to sing goodbyes

I slipped through slush on Boxing Day
the shops were shut no films were on
You swanned around to hers and left a note to say
you'd gone

Stood by the fire place
You look ridiculous
You cant just come and stay here
like you did last Christmas
You know what you did wrong
and Christmas well Christmas is cancelled this year

The last thing I expected
was to come and find you knocking
at my door waiting for a treat in Christmas stockings (
how shocking)
Don't take you jacket off this is not you home
Just raise you glass to two more people spending
Christmas day alone

Stood by the fire place
You look ridiculous
You cant just come and stay here like you did last
Christmas
You know what you did wrong
and Christmas and Christmas well Christmas is
cancelled this year

No mum don't worry about me il just have fish and
chips for tea
I'll watch the queen and go to sleep
I'll watch the queen and go to sleep

Stood by the fire place
You look ridiculous
You can't just come and stay here like you did last
Christmas
You know what you did wrong
and Christmas and Christmas well Christmas is
cancelled this year
You know what you did wrong
and Christmas and Christmas well Christmas is
cancelled this year

No mum, don't worry about me, just have a happy
Christmas x 2
Christmas is cancelled this year
