Countdown To Doomsday

Ten

"H" is the letter

It won't get any better

And the end is far too easy

Nine

Oh, you may run

And hide from the sun

Only know it matters not

Eight

Who the hell is this man?

Cold, heartless, soulless

I see he's no man at all

Seven

Holy ones are the first to go

Pray my child as all men bow

Only in the sea of fire no one hears

Six

Oh the sun burns bright

Brighter than ever before

Burning your soul to oblivion

Five

Feel the divine rays

Flash right through you

Scorching inside until nothing remains

Four

As the last ones scream

The beast laughs

All hope is lost a long time ago

Three

Mother earth cries in pain

You will cry in vain

As streams of blood will flow

Two

This truly is the end

A universal death

No memories will remain

One

"If a thousand suns would suddenly break through the sky

This would be equal to the splendor of the almighty
I have become death
The destroyer of the world"
