The note on your satin pillow made it clear
Your ladder of success only started here
I might slow you down on your race to the stars
But you might need a rest before you get that far

[Chorus]

If you're looking for a soft place to fall
May I suggest my two open arms
I won't hold you to forever
I just hope you'd call
If you're looking for a soft place to fall

I saw your show in Dallas 'bout a week ago
You sure put a shine on all those city folks
But when those neon lights went out you were all alone
And so I thought I'd call just to let you know

[Chorus]

If you're looking for a soft place to fall
May I suggest my two open arms
I won't hold you to forever
I just hope you'd call
If you're looking for a soft place to fall
I won't hold you to forever
I just hope you'd call
If you're looking for a soft place to fall
