I can't think of one good reason  
Not to fall in love with you  
We were meant to be together  
Do the things that lovers do  
It might take some convincing  
But I swear you're gonna see  
If you don't try to fight it  
Don't try to wrong or right it  
You'll fall in love with me

[Chorus]  
Because I'm fallin'  
Fallin' in love with you  
I hear love callin'  
There's nothing I can do  
You've got me under your spell  
With all the little things that you do  
So why not start fallin'  
Fallin' in love with me too

Please don't say it couldn't happen  
That would tear my world in two  
We both know that love's a gamble  
But you can bet my heart is true  
Girl you gotta take some chances  
If we're ever gonna win  
Just don't try to fight it  
Don't try to wrong or right it  
Just let yourself fall in

[Chorus 2X]  
Because I'm fallin'  
Fallin' in love with you  
I hear love callin'  
There's nothing I can do  
You've got me under your spell  
With all the little things that you do  
So why not start fallin'  
Fallin' in love with me too
