You can go to hell, I'm going to Texas  
Cause Texas is the place I dearly love  
You can go to hell I'm going to Texas  
And if you ever make it down don't look me up

Moved up here with you to Chicago  
Gussed I'd followed you most anywhere  
But this bitter wind and your cold heart cut me to the  
bone  
So I'm gonna let it blow me back home to San Antone

You can go to hell I'm going to Texas  
Cause Texas is the place I dearly love  
You can go to hell I'm going to Texas  
And if you ever make it down don't look me up

Hammered down my pickup through Tennessee  
I still see you in the rear view of my mind  
Five hundred miles of hurtin' won't bring no relief  
Till that red river runs somewhere between you and me

You can go to hell I'm going to Texas  
Cause Texas is the place I dearly love  
You can go to hell I'm going to Texas  
And if you ever make it down don't look me up  
And if you ever make it down don't look me up
