Who could believe it could happen again
But just look around and youll know its true
The nazis didnt die they just moved to
America
And now swastikas come in red white and blue
Fourth Reich Nazi Amerika
Fascism comes to the USA
Fourth Reich the nights getting darker
Too bad a great country has to end this way
You dont have to kill Jews to be a good nazi
Jews can kill Arabs and be nazis too
Americas full of inferior people
Sooner or later theyll get round to you
Fourth Reich Nazi Amerika
Kill anything that gets in your way
Fourth Reich take anything you want
But now the time comes when youll have to
pay
Germany rode high on the hog for a short time
Fifty-five million people died in that war
Now we all live in a nuclear ghetto
We dont even need gas chambers anymore
Fourth Reich Nazi Amerika
Is this what you want for the USA
Fourth Reich times running out for us
Too bad a great country has to end this way
