Friends of mine  
They said they were friends of mine  
They said now its time  
Sign on the dotted line  
Your lifes a bore  
What are you waiting for  
We told you times before  
What are you waiting for  
Standing on the edge of the key  
All you want the world to do  
Is start murdering and killing  
Im waiting for the night boat  
Waiting for the night boat  
Your friends have gone  
Youve known it all along  
Why dont you say youre wrong  
Why dont they drop the bomb  
Realize  
Got to realize  
War hero characterized  
Were sick of your stupid lies
