The dancehall was silent  
the air was hung dry  
they broke the laws of nature  
and now they're going to die  
a savage beast is stupid  
the ones that made the pump  
they understand not what they did  
there is no thing like god  
they chopped down all the forests  
they polluted all the air  
they done it all for profit  
for the earth they did not care  
reconquered everything  
they took over the land  
and will remember punishment  
when judgement day is at  
judgement day  
is at hand  
judgement day  
is at hand  
judgement day  
is at hand  
judgement day  
is at hand  
the dancehall was silent  
the air was hung dry  
they broke the laws of nature  
and now they're going to die  
a savage beast is stupid  
the ones that made the pump  
they understand not what they did  
there is no thing like god  
they chopped down all the forests  
and polluted all the air  
they done it all for profit  
for the earth they did not care  
reconquered everything  
they took over the land  
and those men will see the fire  
when judgement day is at  
judgement day

is at hand  
judgement day  
is at hand  
judgement day  
is at hand  
judgement day  
is at hand  
oh oh oh oh oh oh oh oh  
oh oh oh oh oh oh oh oh  
now judgement day is at  
judgement day  
is at hand  
judgement day  
is at hand  
judgement day  
is at hand  
judgement day  
is at hand
