My mom smokes pot  
She smokes it a lot  
She's really quite mellow  
But her brains are like jello  
Oh mommy mommy dear  
I wish you could hear  
What I have to say  
I must go away  
Cause who wants a mother thats a veg-head  
You never give me cookies and milk  
You always wanna feed me hash brownies  
Even though you know they make me puke  
My moms on dope  
She really can't cope  
Her life is a mess  
Never changes her dress  
My mom don't care  
Just sits in her chair  
Watching TV  
How bored can she be  
I wish she would have stayed at Woodstock  
She never ever should have had me  
My moms just another hippie burnout  
A permanent mental OD
