Why dont you open your eyes
Use your head for a change
Dont you know were just whores for the
government
Just pawns in the FÃ¼hrers little game
Its all around you cant you see
Cant you see it all come true
All the nazi dreams
Its you and me
Its you and me thatre gonna have to pay
Youre living but dont know it in a fascist state
And reality is gonna catch up one day
Raise some nazi children
Teach them you can get peace by war
Away with minorities
Watch the master race get more and more and
more
