I walk out my door and there's trouble everywhere  
Have people just gone numb cause it's too hard to care  
The blind man the drunkard and the thief  
Dance in crazy circles down my street  
And the evening's setting sun brings no relief  
The world lies in ashes at my feet  
Always in doubt about which way to go  
And the more that I learn the less that I know  
When I was young it was easy to believe  
That someday I'd know what I needed to be free  
But the same old doubts and fears keep stopping me  
From being what I know that I could be  
I walk through this world and I'm always alone  
Don't know where I'm going don't know the way home  
But I can't stop to wonder there's no time to cry  
And the last thing I need is a reason to live  
Or die  
I've got this idea but it doesn't make sense  
My heart tells me go but I sit on the fence  
And watch as the life passes by  
And wonder what is true and what's a lie  
And I guess I never know exactly why  
I haven't got a chance but still I have to try.
