Never mind those bastards on the sidewalk
I don't mind them shouting things at me
Never mind the way they talk I don't care
Let them talk about me
Those people on the edge of life no they don't mean a
thing
Those people with the aimless lives those people are so
sickening
Do you know how it will be with nothing on your mind
The only things that you can see are the material things
on the
Outside
I can't help getting angry at the way some people think
I can't help getting angry at the way some people don't
think
Do you know how it will be with nothing on your mind
The only things that you can see are the material things
on the
Outside
Never mind those bastards on the sidewalk
I don't mind them shouting things at me
Never mind the way they talk I don't care
Let them talk about me
