"the mushroom is exploding"

Visit "[the mushroom is exploding](#)" on MotoLyrics.com

The mushroom is exploding
You can see its evil core
Some people were warned go into hiding
Close the fallout shelter door
The human race is leaving
Goodbye so long farewell
All the government is achieving
Is sending themselves to hell
Death is life life is death
Livings really dying extinction is the rest
When the war is finally done
Radiation fills the sky
Find out no one really won
But you know you're gonna die
The human race is leaving
Good bye so long farewell
All the government is achieving
Is a one-way ticket to hell
