I thought I was charming  
You couldn't say no

We met at your party  
You came to my show

All of your promises  
Were too easy to believe

When I was wearing my heart on my sleeve

But you're a good time lover  
And when the chips are down  
You're not around.

Chorus  
What have you done for me lately, baby?  
What do you want from me now?  
I used to let you use my lovin'  
but you don't fool me now

I made exceptions  
Just for you

And if you were happy  
Then I was happy too

I gave you the benefit of all my doubts  
But now I know what you're all about

You're a good time lover  
And when the chips are down  
You're not around

Chorus  
What have you done for me lately, baby?  
What do you want from me now?  
I used to let you use my lovin'  
but you don't fool me now  
No, you don't fool me now

Since you've been gone  
I've picked up the pieces

I'm movin' on and I'm happy alone

I don't need you around anyhow  
I don't need you around, yeah

Chorus

What have you done for me lately, baby?  
What do you want from me now?  
I used to let you use my lovin'  
but you don't fool me now

Chorus

What have you done for me lately, baby?  
What do you want from me now?  
I used to let you use my lovin'  
but you don't fool me now  
No, you don't fool me now  
I said, You don't fool me now
