I'm looking for some substance to occupy my mind
If I can't get it fast it's a waste of time
I don't care where I get it makes no difference to me
I need that fix if I'm gonna get free singin
Ahhhh....
Give me a fix I'm gonna get my fix
Give me a fix I'm gonna get my fix
I don't want another show from someone I'm suppose
to know
I just want a quick distraction anything for a reaction
a constant source of stimulation entertainment and
sensation
got no attention span, I'm just a modern man!
I wanna be where the action is
Where he gets her's and she gets his
I wanna big scene green screen digital dopamine
Looking for love in the 21st century
I don't want another show from someone I'm suppose
to know
I just want a quick distraction anything for a reaction
a constant source of stimulation entertainment and
sensation
got no attention span, I'm just a modern man!
Give me a Fix I'm gonna get my kicks!
