There's a sweetness  
In your eyes  
Even when you're telling lies

You play with my affection  
And Lead me in all directions  
My Love  
Don't you tread on me  
Or I might change my mind this time and set you free

My friends, they say I'm crazy  
I should have listened, and left you baby

You play with my affection  
And lead me in all directions  
My Love  
Don't you tread on me  
Or I might change my mind this time and set you free

Pick me up just to let me down  
You tie me up and mess me around  
You pick me up, pick me up just to let me down  
And mess me around

My Love  
Don't you tread on me  
Or I might change my mind this time and set you free  
My Love  
Don't you tread on me  
Or I might change my mind this time and set you free  
And set you free, And set you free, And set you free
