Do you, do you, do you  
yes I do  
Do you, do you, do you  
yes I do

Do you feel it  
Do you feel sexy body ructions  
Do you want it  
Do you feel it deep inside

So you say you wanna lose control  
Well demolition's coming back in full  
You can grab it you can bring it to the city  
And be the architect of negativity

So come on  
Mayhem's knocking on your front door  
So come on..

Brass knuckles and a twobyfour  
I wanna know

oh do you, do you, do you dig destruction  
Latino lovers often do  
And are you crazy 'bout corruption  
Look in your soul and say it's cool

--

Are you sick  
Are you sick of the construction  
Summers here and the time is right to vandalize  
You can take it to the united nations  
Start a riot on your local rock station  
Hey, your not alone, pick up the stone  
Live a life of crime

So come on  
The war is knocking on your front door  
So come on

Brass knuckles and a twobyfour  
I wanna know

Oh do you, do you, do you dig destruction  
Latino lovers often do  
And are you crazy 'bout corruption  
Look in your soul and say its cool  
You know that it's cool, know that it's cool, know that it's  
true

Crazy  
I'm crazy like a fool  
Yeah, yeah, crazy  
So what are you gonna do  
'bout destruction

Crazy  
I'm crazy like a fool  
Yeah, yeah, crazy  
So what are you gonna do
