Welcome to the garbage dump, it's a cellar by the sea
Dogs fucking in the sun, you're on the list but it ain't for
free

Welcome to the garbage dump, to the toxic merry-go-
round

There's something in the air tonight where the poison
meets the town

Rope burns, turn the body loose
Retox and turn the body loose

Welcome to the garbage dump, welcome boys gone
wild
Sweating, laughing, screaming on a roller coaster ride
Welcome to the garbage tip where the ocean meets the
trash
Tonight we're gonna let it rip, let it burn before we
crash

Rope burns, turn the body loose
Retox and turn the body loose
Freak out, turn the body loose
Jihad, have you heard the news?

We can take a hike, we can fly a kite
We can burn some buns in the sun

At the garbage dump
At the garbage dump
At the garbage dump
At the garbage dump

Welcome to the garbage dump
Welcome to the garbage dump
Welcome to the garbage dump
Lots of filth in one big lump
