I was down on the corner,  
when you got me hired  
In the back of the car,  
you got me fired  
Got no money in my pocket, feeling tired  
and I wish that I was wired  
As I lay down on the sofa,  
demons in my pocket taking turns.  
You give me worms  
You give me worms  
See it go red, encase my skin, it burns!  
You, you give me worms  
Girl, you got me on a diet, and I caught parasites.  
I was blowing full steam,  
you had me stuck at the docks  
I was running full speed,  
you made me crash at the rocks  
You got me goin without knowing  
that this maggots put me in a state of shock  
As I lean back on my recliner,  
I feel my stomach toss and turn.

You give me worms

You give me worms

See it go red, encase my skin, it burns!

You, you give me worms

You give me worms

I got to spell it out, you never learn

Told you you would worry best worms

You give me worms

Girl, you got me on a diet, and I caught parasites.

Worms, give me worms!

Give me, give me, give me, give me, give me worms!
