One, two, three, four

Naked and faking on a poorly lit stairway
Then we were getting down on a dance floor
Oh my love, where did you go?
She turned her body and soul into

Air, I need you like air
Water, I need you like water

I've been away for a very long time
The roads and their refuge keep you out of my mind
Arise, arise, I wanna take off and drive
And throw my arms into the clear blue

Air, I need you like air
Water, I need you like water

Here she comes
Buzzing through my memory
Here's the ghost
Her perfume trickles through the

Air, I need you like air
And water, I need you like water

So try, try to reach me
Even if you can't see me
'Cause I'll be around under the clear blue air
