Settle down now and sit with me  
Let me tell you how this all came to be  
A yellow flower with your pedals to the air  
And flying on paper wings that brought you here  
Summer rolls on in the lazy hours  
An ether dream way  
Of hummingbirds and clouds  
Midnight swims in the cool back waves  
And you in my arms as it rolls away

Chorus

Little dandelion  
Let your heart keep time  
Now the clouds are gone  
All of your tomorrows shine  
Oh oh  
All of your tomorrows shine  
Oh oh  
All of your tomorrows shine

Born of restless night the moon as a pearl  
Playing games down inside your soft warm world  
Hear my voice I know that you can  
You're the fire in my eyes  
The sun as a man  
Seasons come along and seasons go  
And what they'll leave behind  
I don't pretend to know  
I'm afraid that all I have missed  
Will loom very large when the darkness lifts

Chorus

Little dandelion  
Let your heart keep time  
Now the clouds are gone  
All of your tomorrows shine  
All of your tomorrows shine  
All of your tomorrows shine

I will ride by your side  
Wherever you go  
I won't run I won't hide

Just letting you know

Chorus

Little dandelion

Let your heart keep time

Now the clouds are gone

All of your tomorrows shine

All of your tomorrows shine

All of your tomorrows shine

All of your tomorrows shine

All of your tomorrows shine

All of your tomorrows shine
