"So Long (La Demo Version)"

Visit "[So Long \(La Demo Version\)](#)" on MotoLyrics.com

It has the night crash landed again
Your turbulence is wicked
Woke up we're walking on a disappeared floor
We're back against the wall
What does it mean, you're lying so close to me
Your gravity is wicked
It has the night my boat out to sea
Electricity is crazy
It's been so long since I've seen you
You haven't changed, you haven't changed your way
It's not true
It's been so long since I've seen you
You haven't changed, you haven't changed your way
It's not true
Why are you turning my water to germs
Your miracles are empty
In your bowl their is no fruit
But your nature is so heavy
What does it mean you're lying so close to me
Your gravity is wicked
It has the night my boat out to sea
Electricity is crazy
It's been so long since I've seen you
You haven't changed, you haven't changed your way
It's not true
It's been so long since I've seen you
You haven't changed, you haven't changed your way
It's not true
La na na na na
La na na na
La na na na
La na na na na
La na na na
La na na na
It's been so long since I've seen you
You haven't changed, you haven't changed your way
It's not true
It's been so long since I've seen you
You haven't changed, you haven't changed your way
It's not true
