They say we're all gonna die but I'll never believe it
I love this world and I don't wanna leave it
They say that death is a deal that you cannot refuse
But I love you, girl, and I don't wanna lose you

Don't want a long life
I don't wanna die at all
I wanna be the man who lives forever
I ain't never gonna die and I want you to come

They say a life is a tale, it begins and it ends
And forever's a word that we can't understand
Well, I know that my life's better when we're together
So why can't our story just go on forever?

Don't want a long life
I don't wanna die at all
I wanna be the man who lives forever
I ain't never gonna die and I want you to come

You say a life without end wouldn't have any meaning
The journey to death is the point of our being
Well, the point of my life is to be with you, baby
And there ain't enough time in the life that they gave me

They say we're all born to die but I'll never believe it
I love this world and I don't want to leave it
They say that death is a deal that you cannot refuse
But I love you, girl and I don't wanna lose you

I wanna be the man that lives forever
I wanna be the man that lives forever
I wanna be the man that lives forever
I wanna be the man that lives forever

And all those days and all those nights
And all those days and all those nights
And all those days and all those nights
Forever together, forever alive
And all those days and all those nights

Forever together, forever's a lie
And all those days and all those nights
Forever together, forever alive
And all those days and all those nights
Forever together, forever's a lie
