Among the many muted faces
You try to find me in the spaces
You're drawn to my song
You only move to keep from sinking
You close your eyes as if you're thinking
Afraid all along
That in my eyes you're revealing
You'll find out what you're needing
(Chorus)
Nothing but pennies in my pocket
Nothing but faith to keep me warm
Well baby, now I'd be broke without it
Tell me, how much for your love
Slip my heart in your back pocket
All that I got to keep you warm
So baby don't leave me here without it
How much for your love
(Nothing but pennies in my pocket)
How much for your love
Hoping the melody will leave you
You walked here where I might not see you

Reach out to the wind
Looking to catch it for a minute
But just to hold it, not be in it
I've been where you've been
Cause somehow I'm so afraid
The love will reveal how much you're made of
[Repeat Chorus X2)
Your love, yea, your love
Nothing but, nothing but
Nothing but, nothing but
Cause somehow I'm so afraid
The love will reveal how much you're made of
(Chorus x3)
Nothing but, nothing but baby
Nothing but, nothing but baby
I'd be broke without it.....
How much for your love
Nothing but pennies in my pocket
