Dont tell me how i had a vision

That this day would come to be

Call it luck, call it intuition

Here i am (here we are),

Isnt that enough

For a little bit of reality

Fate is good, fate can be real

If you believe it's what you feel

Oh, what a moment

When i looked into your eyes

I knew i got the prize

Oh, baby what a sweet surprise

Chorus:

It only took a minute,

Baby to let you in my life

It only took a minute

For me to realize

It only took a minute

And i knew just what to do

It only took a minute

To fall in love with you

Time and time again,
Boy i 've always been
The only one to think things through
You got a hold of me
Set me free
Who would have known
Right out of the blue
I discoverd the magic of all my dreams that night
With just one look at you
I knew that everything would be alright
Chorus
Here i am isn't that a vision
Here i am isn't that a vision
Oh, what a moment
When i looked into your eyes
I knew i got the prize
Oh, baby what a sweet surprise
Chorus 3X
