Ahh ahh

I can run as fast as the boys

I can sing and dance ballet

I can show all of my toys

Though I'd rather be alone today

It's not that I don't like to hang around with you

And though you're fun I'm on the run, so much to do

Gotta make the dreams I have come true

'Cause life is what you make it and to waste it just won't do

Chorus:

Split Chick

Gotta split can't stay

That's the way I'm a Split Chick

Thank's a lot, had fun, see you babe

Split in two, I'm a Split Chick

I can hold my breath forever

I can pledge allegiance in reverse

You know kids can be so clever

It can be a blessing or a curse

When I'm with you I get lost in your eyes

I forget about the time and then I realize

I gotta run along and sing my song

I'll kiss you and I'll miss you and be back before too long

Chorus (2x)

Hahahaha

That's right

Every flower has to find a way to reach up to the sun

Even through the cracks in the side walk

Ahh ahh

Sure.... whatever

Gotta make the most of everyday

Makin' friends that'll help me on my way

I'll rise above the fear I feel

I'm gonna take these dreams and make them real

Chorus til end
