chorus

your the one

you set me free

when you're close me

and all that I do

is think about a way to make u stay with me

baby im falling apart

cause you know the way to my heart

oh baby

i knew it

the moment you looked in my eyes

my life was in your hands

you changed me

and now youu say u wanna let go

of the love we had

bridge

i just dont wanna loose you again

baby i want you to know

chorus

oh baby if only

you could see the way that i feel about you

cause i need you

beside me

is there anything i can say before you walk away?

bridge

chorus

what am i gonna do

no i just cannot live cannot breath without you

i want you back in my life

i want to set things right

cause you know the way to my heart

chorus
