"Want You Back"

Visit "[Want You Back](#)" on MotoLyrics.com

Last night saw you the first time

since we broke up

i'll tell you baby

it all came back to me

when i look in to your eyes

there was something more

that i never really noticed before

could it be that i was wrong

and i was so wrong

when i realized and turned around

and you were gone

(CHORUS)

if i said i want you back

would you turn around

and say you want me too

cuz" i say i want you back

this time i really mean it

does it matter if i told you

i changed for you

but i dont know what to say or do

we grew apart but

i still want you i my heart

i belive that its time

to make a new start

could it be that i was wrong

and i was so wrong

when i realised and truned around

and you were gone

(CHORUS)

if i say i want you want you back

will you turn and look away

form me if i say i want you back

with me

belive

(CHOURS) X2
