Now here's the story
How it goes
It's all the same

A girl, she came along
Took a young boy
and stole him away

But she loved him so
treated him nice
they fell in love once
and they fell in love twice

Nothing but a twist
No, no
Not one little thing

So, whatever you decide, baby
It's alright with me
I'll understand

Wanna be your undercover girl
Your undercover girl

So that's the story
How it goes
It's all the same

This girl, she came along
Took a young boy
and stole him away

Said they were crazy
they've never been
But they ain't never been seen
or heard ever since then

Nothing but a twist
No, no
Not one little thing

So, whatever you decide, baby
It's alright with me
I'll understand

Wanna be your undercover girl
Your undercover girl
(3x)

But she loved him so
treated him nice
they fell in love once
and they fell in love twice

Nothing but a twist
Not one little thing

Whatever you decide, baby
It's alright with me
I'll understand

Wanna be your undercover girl
Your undercover girl
(5x)
