I hope it can work out tonight I know we been seein'
each other for a long time and (hahaha) I'm hopin'
tonight can be the night... yeah, that's right [2Pac]
another shady mission had enough of shady tricks you
so suspicious like watchin' pictures in hatin' vision
tonight is love making take you any place you wish
today we satisfy cause they were stolen kisses blind
insanity perfect pictures of me and my family not
understanding the destiny that they planned for me if I
have kids will I live to see' em grow? well I don't know I
live the life of a thug nigga until the day I go more
broken promises a sacred bond broken I know I'll die
alone but yet and still I'm hopin' visions of prisons
maybe I'll be forgiven I know its better in heaven cause
bein' here ain't living close my eyes and see nothing
but pain the world's crazy still look for a queen to plant
seeds and have babies maybe I'll be the one or maybe
I'm lost you'll never know being cautious, if you play
your cards right (chorus: K-Ci and JoJo) If you play your
cards right, everything will be alright if you play your
cards right, tonight will be the night (repeat 2x) [Big
Syke] I'm always in the mix life is full of tricks I guess,
tryin' my best, nothing less before I lay to rest my quest
in future I mourn like new born baby intense before a
world so crazy my daddy raised me to be a man to do
the best I can he said you won't succeed in life without
a plan Its hard to take what's in my trait within hate
can't wait, better change before its too late [Mopreme]
they got me at the bottom of a deck searching for my
ace I can't take too many chances ain't much love in the
place full of torment and soul and its written all in my
face problems inside quick to smile beyond the trace a
mission slightly incomplete misconceptions of success
and defeat I roam these dark streets alone searching
for my homies, smokin' till I'm gone when I kind of
need someone to lay my burdens on Chorus 2x
