[Intro] I Luv U 2Pac I Luv U 2Pac and Kato I Luv U 2Pac
Peace Out (This for you Pac) [Mopreme] From local
drug dealers, way up in the bay To international crime
boss' doing shit our way Still just a legend to many, but
he was also my brother My roll dogg, and ? Shakur We
rose through these ranks, on weed straps and ? 91, 92,
it was only a chosen few Riding on our 4's, taking these
niggaz hoes Chronic smoke through our nose, as the
prophecies of the ? used to tell me more Watch this
little young nigga do it Put his stamp on the game, we
rolled and mashed to it Realist nigga you could ever
know, true soldier at heart We all get off track some
times and it so easy to fall apart But I used to tell him,
while my nigga sat in the pen Aint not peace in
vengeance, aint no rest in revenge Aint no starting
again. And for that simple fact its until these wheels fall
off, until my nigga comes back [Chorus: Big Syke]x2
You'll carry on after the cowards are long gone
Family's staying strong and mom's holding on Like you
knew she would, wish I could bring you back Trade
places as a matter of fact [Big Syke] I seen the fire in
your heart, from the start stayin true Pick me ? killers
and said look what the world has for you I had no
future thoughts, at the time anything goes Now I'm
rockin shows, fucking hoes, state to state Let go of the
wait, and the ?, now I see my dreams Got me true when
i'm a juvenile, now what I am supposed to do But ride
nigga ride till I reach the other side Cause there is no
where to hide in the world of haters Perpertrators
wastin they breath till theres none left Thug Life to
death, may you rest in peace my nigga Cause love
dont love no body But I love you nigga, till they drop my
body...in the dirt
