salt diamond, sugar diamond
emerald wave, emerald island

I was very mad at God yesterday
paramedics took my mother away
I wanna write but I got nothing to say
I wanna write but I got nothing to say

since I got nothing to say I'm gonna sing about nothing

salt diamond, sugar diamond
emerald wave, emerald island

I think I got one up on the weather
spic is the new nigger
welcome in the house of a stranger
let's find something in common

let's rob our mothers and fathers
let's set the house on fire
let's make some friends and fuck them
let's start all over again

salt diamond, sugar diamond
emerald wave, emerald island
