Remember when you used to say that I was always in
your way
I was wasting your time and mine remember baby
remember baby
You said my kiss was cold as ice
You never wanted to kiss me twice
Left me in the back door just cryin
Remember baby remember baby
But that was so long ago
I bet you can't do it no more
no more no more no more

I betcha can't kiss me just one time baby
Without asking me
Would you believe you'd be beggin me
For just a little bit more
I betcha can't kiss me just one time baby(3x)

Said I had a will in mind
But I dragged you lovin from behind
Told me to keep on tryin
Didn't you baby(4x)
I been waiting for the day
When I could look you straight in the eye and say
I'm ready to do my part
Take me baby(4x)
I sent you a note of graditude
Thanking you for what you made me do me do me do
me do

I betcha can't kiss me just one time baby
Without asking me
You'll be down on your knees beggin me
For just a little bit more
I betcha can't kiss me just one time baby(5x)
Sock it to me sock it to me sock it to me baby(2x)
