Terry Britten/Graham Lyle)

Tears will leave no stains

Time will ease the pain

For every life that fades

Something beautiful remains

We're living in world, stars and dust

Between heaven 'n all that surrounds us

We're travellers here, spirits passing through

And the love we give, is all that will endure

Hey now, what we had is gone

But I still remember you

Just like a rose after the rain

Something beautiful remains

Tears will leave no stains

Time will ease the pain

For every life that fades

Something beautiful remains

Now the darkness falls

sun's going down

one by one, the stars are coming out

tide comes in, washes footprints from the sand

one day ends, a new day must begin
Hey now, though we are apart
You're forever in my dreams
Hey now, love is lost again
[What u gonna do about it,
what u gonna say]
Something beautiful remains
Tears will leave no stains
Time will ease the pain
For every life that fades
Something beautiful remains
And you wonder sometimes how we carry on
When you've lost the love the knew
But it's alright, it's alright
To your own heart be true
Tears will leave no stains
Time will ease the pain
For every life that fades
Something beautiful remains
