Whatever you want me to do, I will do it for you
whatever you want me to be, I will be what you need
because it's love that I feel whenever you're really near
I'm feeling sensual
I can't rely on myself, I'm wanting you and no one else
you've got me wrapped up
'Cause time takes what love heals
and deep in my heart I know it's for real
Whatever you want me to do, I will do it for you
whatever you want me to be, I will be what you need
because it's love that I feel whenever you're really near
I'm feeling sensual
and I, I know that it's real
I know you've had flames in your heart
that have torn you apart
I know you've been saved from your own
but together we're strong
because it's love that I feel whenever you're holding
me
I'm feeling passionate
'cause time takes what love steals
and deep in my heart I know that it's real
Whatever you want me to do, I will do it for you
whatever you want me to be, I will be what you need
because it's love that I feel whenever you're next to me
I'm feeling sensual
I know, I know that it's real...oohhh
whatever you want me to do....do, do,...oohh
'cause time takes and love heals
wherever we are, I know it's for real
I know, I know that it's real
Whatever you want me to do baby, baby, baby
I will do darling, do it for you
whatever you want me to be..yeah, I will be everything
because it's love that I feel whenever you're really near
I'm feeling sensual
It's time that I'm free of a love that pleases me
ooh, too easily, easily baby.
