No more accusations
Or fake relations - Please
Streets as dry as paper with Autumn leaves
We will never leave
But everything was slow as we let it go
Cos finally we're leaving and I'm not breathing
I've just watched my life run past me slow.

(CHORUS:)

I feel it,
C'mon now put your best smile on
And say it like you mean it
I need it
C'mon now
C'mon now
Now c'mon now.

So if we get together will you remember - me
Wasted life is everlasting in crowded streets
We can never leave
But everything was slow when they let us go
I thought that I would miss life but now I feel
I feel as if I just woke from a dream.

CHORUS

(Now, c'mon now.)
(Now, c'mon now.)

CHORUS x2
