"When I Return to the World"

Visit "[When I Return to the World](#)" on MotoLyrics.com

Into a dream I run away
Saw the heavens disappear
The beat was fast and I was scared
Somehow I thought I'd meet you there

But I know when I return to the world I'll be free

(CHORUS:)

When I return to the world x2
Love will come to me like an American movie
When I get back
When I return to the world x2

An ocean way above my head
I'm thrown into another spell
Will I wake up I wander where
Can't wait to tell you where I've been

Well now I remember when I return to the world I'll be
free

CHORUS

When I return to the world x4
I'll be free
And the voices I heard will sing for me

When I return to the world x4
Who's gona know I was here
Who's gona know I was here
Who's gona care I was here
You'll never know I was there ... but I was there!
