Snook: That's it sorted
Vingoe: Still prefer the wooden badger.

My lovely horse running through the
field.
where are you going with your dreadlocks flowing in
the
wind.
I want to shower you with sugar lumps and ride you
over
fences.
Polish your hooves every single day and take you to the
horse
dentist.
My lovely horse running through the
field
Riding around with a man on your back,
like a train in night, like a train in the
night.

(My lovely, lovely, lovely horse)
My lovely horse
(My lovely)
running through the field
where are you going
with your dreadlocks flowing in the wind.
I want to showe you with sugar lumps
and ride you over fences.
Polish you hooves every single day
and take you to the horse dentist.
(My lovely, lovely, lovely horse)
running through the field
Riding around with a man on your back
like a train in the night, yeh
like a train in the night.
