"10 Miles To Go"

Visit "[10 Miles To Go](#)" on MotoLyrics.com

Mixed drinks and a night we can't remember
She broke the heels on the shoes I lent her
This could be Paris, this could be London
We've been going hard and fast since sundown

Twelve shows in a row
There's no stopping us
It's what we're living for

10 miles to go, 10 miles to go
10 miles to go until we rock again
Until we rock again

We're driving on, another day behind us
Broken hearts and broken strings won't stop us

Eighteen shows in a row
There's no stopping us
It's what we're living for

10 miles to go, 10 miles to go
10 miles to go until we rock again
Until we rock again

We're gonna make you sing the chorus
That ain't a threat, man, it's a promise
You can try but you can't stop us

The scene is new but all too familiar
Staying up and lack of sleep won't kill ya

Twenty-four shows in a row
There's no stopping us
It's what we're living for

10 miles to go, 10 miles to go
10 miles to go until we rock again
10 miles to go, 10 miles to go
10 miles to go until we rock again
Until we rock again, until we rock again
