How many guys like me
All through history
How many girls like you
Some guys kiss and tell
Love you and leave you
Bring you up take you down
But I don't care
Lonely days in the sun
Friends don't call
I watch the light on the wall
Lonelier nights
I sleep with my sweat
But I don't care
My heart remains the same the same
Inside my heart remains the same
Mon coeur reste toujours le meme
London to Paris
Amsterdam to Berlin

Walking the same streets
Thinking the same Thoughts
Walk down Wardour
To Saint-Germain
One big lonely city
But I don't care
one big Eurocity
But I don't care
My heart remains the same the same
Inside my heart remains the same
Mon coeur reste toujours le meme
I was looking for him
And she came to me
I was looking for him
But she came to me
I was cruising my decay
Where the trams
