Another failure another chapter in the black book  
A clean escape a lifetime delayed  
Intermission would be lovely

No a rerun of the weekend and what did you get  
Yo spir fortis is my halo

Fill me up with artificial happiness  
The remedy to this sentimental illness

No correlation just a fake invalid password  
Short term memory loss a chance to get air  
Intermission would be lovely

No a rerun of the weekend and what did you get  
Yo spir fortis is my halo

Fill me up with artificial happiness  
The remedy to this sentimental illness  
You buy some time well its all you gain  
It keeps your mind from go insane  
Fill me up with artificial happiness

Fill me up with artificial happiness  
The remedy to this sentimental
