We're coming from far, over oceans of time  
We're coming from places we once left behind  
We're looking for love, in the heart of every man  
We're looking for reasons we'll all understand

We are in need, we want a place for everyone  
We shine through love, we are the children of the sun

We follow our dreams and we'll never stop  
We follow our hopes and we'll never give up  
Until we have found the warmth of the sun  
Until we are one  
We are in need, we want a place for everyone  
We shine through love  
We are forever on the run.

We are in need, we want a place for everyone  
We shine through love, we are the children of the sun  
We're coming from far, over oceans of time  
We're coming from places we once left behind  
We're looking for love, in the heart of every man  
We're looking for reasons we'll all understand

We follow our dreams and we'll never stop  
We follow our hopes and we'll never give up  
Until we have found the warmth of the sun  
Until we are one, the children of the sun.

We shine  
Through love
