"Finally"

Visit "[Finally](#)" on MotoLyrics.com

You are broken, little friend
You are broken, little friend
you are broken, little friend
Dirty dogs, they ate you twice
Can not be, here with me

I can't stroke you, little friend
you can't scratch me in my face
Can not be, here with me

You looked in my eyes
When you told me goodbye
I could see the pain
That was gone, afterwards
Finally Finally
I can jump higher then you did
Finally I can scratch harder then you did
Finally I can run harder then you did
Finally I can jump higher then you did
You looked in my eyes
When you told me goodbye
I could see the pain
That was gone, afterwards

finally finally
finally finally
finally finally
finally finally
finally

All I have now are good memories
now you're dead
