It's friday evening you're lying in your bed
Trying to sleep trying to forget
All night you're thinking about what's right and who is
wrong
They say it's not so bad but the words all sound so
strong
You just don't know
What's going on
There's no one here to tell you that you still belong

Every friday night everything's gonna be oke
You feel all alone and you have so much to say
When you go down the stairs they are fighting and
crying
It's friday night, they're lying

It ain't always easy to grow up on your own
No one to help, you have to do it all alone
No one to catch your ball if you wanna play a game
No one who looks like you and no one who feels the
same
You just don't know what's going on
There's no one here to tell you that you still belong
Every friday night everything's gonna be oke
You feel all alone and you have so much to say
When you go down the stairs they are fighting and
crying
It's friday night, they're lying
Every friday night everything's gonna be oke
You feel all alone and you have so much to say
But you know when you go down the stairs they are
fighting and crying
It's friday night, they're lying.
