"Little Sister"

Visit "[Little Sister](#)" on MotoLyrics.com

I never knew her name
I never knew what she looked like
Even when I passed her on the street
It was just a girl to me

Now I know her name
Now I know what she looks like
I saw her picture, read the story
She was breaking news

Never ever can imagine
How they just took away your little sister
Never ever could say to her goodbye
Sometimes I wish I could cast a spell

I never knew her name
I never knew what she looked like
Even when I passed her on the street
It was just a girl to me

Ooh ooh ooh ooh ooh ooh
Now I know her name
Now I know what she looks like
I saw her picture, read the story
She was breaking news on tv.
