I got my head down at the bar
empty bottles all around me
Oh I can't eat I can't sleep
the only thing I do is think about you

I drink all night and drink all day
to cure this pain inside my heart
Hey bar tender don't give me no more shots
give me the whole bottle and i drink it straight up

I drink and drink till I can't no more
que perdido me encuentro si tu no estas mi amor
I drink and drink till I can't no more
perdido entre las copas las copas de dolor

I drink and drink just to forget
I drink and drink but nothing's changed
I rather have a knife running to my chest
I rather have you back if theres still a way(?)

I drink and drink till I can't no more
que perdido me encuentro si tu no estas mi amor
I drink and drink till I can't no more
perdido entre las copas las copas de dolor
