How can we fight the diseases of the poor  
When colour of a nation is reasoning for war  
Men force your surrender, then ask you to believe  
With the lives of many millions embroidered of their  
sleeves  
Is this reason - a price to pay?  
Give us reason - A FIRST NEW DAY  
Acid emotion - child of suicide  
Bewilderment and hunger are hurting you inside  
While hopes find protection in the sanctuary of live  
Another voice is silenced in the quite of the night  
Is this reason - a price to pay?  
Give us reason - A FIRST NEW DAY  
All breathe together, suffocate the fear  
Let each of us in comfort share the pain, the tears, the  
years  
Don't let their hate be the dowry of a youth  
Too humble for importance -  
Too honest for the truth  
Is this reason - a price to pay?  
Give us reason - A FIRST NEW DAY  
Give us reason - A FIRST NEW DAY
